Today's Focus
Entrepreneurship Framework
Expanding Programs
Why Focus on Entrepreneurship?

Helps Students Develop Real World Skills

The Ability To Identify The Client
The Ability To Articulate The Problem
The Ability To Create, Develop And Test Solutions
The Ability To Communicate Solutions
The Ability To Effectively Manage A Project
Our Entrepreneurial Framework

ALL STUDENTS
Our framework is inclusive to "ALL" students and embedded into every pathway, culminating in a universal Capstone

SEQUENTIAL APPROACH
Students will receive opportunities starting freshman year to engage in this process such as Youth Entrepreneurs

PASSION DRIVEN
The process is based on student interest and pathway selection with embedded passion projects throughout their journey

DESIGN THINKING
Design thinking is our process to help guide students throughout their journey at CHS

MVA ORIENTED
Our entrepreneurship capstone course is designed for students to create their entrepreneurial experience
EDUCATIONAL PARTNERS

STARTLAND
Center is working with Startland and Katie Kimbrell to enhance our professional development through their Meca Methods training.

CAPS
Center is part of the CAPS Network and will be utilizing their resources to create entrepreneurial curriculum designed to enhance our students learning.

K-12 PERFORM
Center is partnering with K-12 Perform to create an entrepreneurial program around data analytics using ShotTracker technology.

UMKC
Together we created a unique dual-credit entrepreneurship capstone course offering for the 21-22 school year.

PREPKC
Provides multiple layers of support for our program design through student work-based experiences, mentoring and professional development.
INDUSTRY BASED PROGRAMS

DATA ANALYTICS
Students will learn how to use "big data" to inform, solve problems and help clients make decisions

Client Project
ShotTracker
Johnson C. Smith

SPORTS AND HEALTH SCIENCE
Students will participate in real world learning around sports medicine and the impact it plays in our greater healthcare system

Internship

VIDEO PRODUCTION AND SPORTS MARKETING
Student run video production using the ESPN 3 platform coupled with student run sports marketing

Client Project
Niles Media
