STRATEGIES FOR COMBATING FOOD INSECURITY IN SCHOOLS

The East students have taken a whole semester to learn about food deserts, food insecurity, and finding ways to help combat that problem. Is this a problem that your community is facing? We want you to take these questions and continue the conversation at your school with your peers, teachers, and school administrators.

We believe that the change you seek can only happen with your input and leadership!

- *How does going to school hungry affect a student's attitude for learning?*
- *Who do you see this affecting the most? Why?*
- *Describe how this topic could have a negative or positive impact on a student's learning experience.*
- *If you could take on this challenge at your school, identify what staff and students would be your allies, and why?*
- *How could this topic have a positive impact on school culture?*
